Notes –

- (1) Eligible Expenses incurred in respect of the same item shall not be recoverable under more than one benefit item in the table above.
- (2) The Company shall have the right to ask for proof of recommendation e.g. written referral or testifying statement on the claim form by the attending doctor or Registered Medical Practitioner.
- (3) Tests covered here only include computed tomography (“CT” scan), magnetic resonance imaging (“MRI” scan), positron emission tomography (“PET” scan), PET-CT combined and PET-MRI combined.
- (4) Treatments covered here only include radiotherapy, chemotherapy, targeted therapy, immunotherapy and hormonal therapy.
- (5) The percentage here applies to the Surgeon's fee actually payable or the benefit limit for the Surgeon's fee according to the surgical categorisation, whichever is the lower.

|                                   | Posterior colporrhaphy                                                                        | Intermediate |
|                                   | Obliteration of vaginal vault                                                                 | Intermediate |
|                                   | Sacrospinous ligament suspension or fixation of the vagina                                    | Intermediate |
|                                   | Sacral colpopexy                                                                              | Intermediate |
|                                   | Vaginal repair of enterocele                                                                  | Intermediate |
|                                   | Closure of urethro-vaginal fistula                                                            | Intermediate |
|                                   | Repair of rectovaginal fistula, vaginal approach                                              | Intermediate |
|                                   | Repair of rectovaginal fistula, abdominal approach                                            | Major        |
|                                   | Culdocentesis                                                                                 | Minor        |
|                                   | Culdotomy                                                                                     | Minor        |
|                                   | Excision of transverse vaginal septum                                                         | Minor        |
|                                   | McCall's culdeplasty / culdoplasty                                                            | Intermediate |
|                                   | Vaginal reconstruction                                                                        | Major        |
| Vulva and introitus               | Destruction of lesion of vulva by excision / cryosurgery / cauterization / laser              | Minor        |
|                                   | Wide local excision of vulva with cold knife or LEEP                                          | Minor        |
|                                   | Excision of vestibular adenitis                                                               | Minor        |
|                                   | Excision biopsy of vulva                                                                      | Minor        |
|                                   | Incision and drainage of vulva and perineum                                                   | Minor        |
|                                   | Lysis of vulvar adhesions                                                                     | Minor        |
|                                   | Repair of fistula of vulva or perineum                                                        | Minor        |
|                                   | Suture of lacerations / repair of vulva and/or perineum                                       | Minor        |
|                                   | Vulvectomy                                                                                    | Intermediate |
|                                   | Radical vulvectomy                                                                            | Major        |
| <b>HEMIC AND LYMPHATIC SYSTEM</b> |                                                                                               |              |
| Lymph Nodes                       | Drainage of lesion / abscess of lymph node                                                    | Minor        |
|                                   | Biopsy / excision of superficial lymph nodes / simple excision of lymphatic structure         | Minor        |
|                                   | Incisional biopsy of cervical lymph node / fine needle aspiration (FNA) biopsy of lymph nodes | Minor        |
|                                   | Excision of deep lymph node / lymphangioma / cystic hygroma                                   | Intermediate |
|                                   | Bilateral inguinal lymphadenectomy                                                            | Intermediate |
|                                   | Cervical lymphadenectomy                                                                      | Intermediate |
|                                   | Inguinal and pelvic lymphadenectomy                                                           | Major        |
|                                   | Radical groin dissection                                                                      | Major        |
|                                   | Radical pelvic lymphadenectomy                                                                | Major        |
|                                   | Selective / radical / functional neck dissection                                              | Major        |
|                                   | Wide excision of axillary lymph node                                                          | Major        |
| Spleen                            | Splenectomy, open or laparoscopic                                                             | Major        |

| Change in muscle or tendon length of hand                                                                         | Major        |
| Excision of lesion of muscle                                                                                      | Intermediate |
| Lengthening of tendon, including tenotomy                                                                         | Intermediate |
| Open biopsy of muscle                                                                                             | Minor        |
| Release of De Quervain's disease                                                                                  | Minor        |
| Release of trigger finger                                                                                         | Minor        |
| Release of tennis elbow                                                                                           | Minor        |
| Transfer / transplantation / reattachment of muscle                                                               | Major        |
| Tendon repair / Suture of tendon not involving hand                                                               | Intermediate |
| Tendon repair / Suture of tendon of hand                                                                          | Major        |
| Tenosynovectomy / synovectomy                                                                                     | Intermediate |
| Transposition of tendon of wrist / hand                                                                           | Major        |
| Secondary repair of tendon, including graft, transfer and / or prosthesis                                         | Major        |
| Fracture/ dislocation                                                                                             |              |
| Closed reduction of dislocation of temporomandibular / interphalangeal / acromioclavicular joint                  | Minor        |
| Closed reduction of dislocation of shoulder / elbow / wrist / ankle                                               | Intermediate |
| Closed reduction for Colles' fracture with percutaneous k-wire fixation                                           | Major        |
| Closed reduction for fracture of arm / leg / patella / pelvis with internal fixation                              | Major        |
| Close reduction for mandibular fracture with internal fixation                                                    | Intermediate |
| Closed reduction for fracture of clavicle / scapula / phalanges / patella without internal fixation               | Minor        |
| Closed reduction for fracture of upper arm / lower arm / wrist / hand / leg / foot bone without internal fixation | Intermediate |
| Closed reduction for fracture of clavicle / hand / ankle /foot with internal fixation                             | Intermediate |
| Closed reduction for fracture of femur +/- internal fixation                                                      | Major        |
| Closed / open reduction of fracture of acetabulum with internal fixation                                          | Complex      |
| Open reduction for mandibular fracture with internal fixation                                                     | Major        |
| Open reduction for clavicle / hand / foot (except carpal / talus / calcaneus) +/- internal fixation               | Intermediate |
| Open reduction for arm / leg / patella / scapula +/- internal fixation                                            | Major        |
| Open reduction for femur / calcaneus / talus/ +/- internal fixation                                               | Major        |
| Operative treatment of compound fracture with external fixator and extensive wound debridement                    | Intermediate |
| Removal of screw, pin and plate, and other metal for old fracture except fracture femur                           | Minor        |
| Spine                                                                                                             |              |
| Artificial cervical disc replacement                                                                              | Complex      |
