

# SUN LIFE CAPITAL GUARANTEE PLAN

Fact sheet as at 31 March 2023

## IMPORTANT

- Sun Life Capital Guarantee Plan (the "Plan") is a pooled retirement fund scheme.
- The Plan is an insurance policy issued by Sun Life Hong Kong Limited ("Sun Life"). The guarantee is also given by Sun Life. Your investments in the Plan are therefore subject to the credit risks of Sun Life. The guarantee is subject to qualifying conditions. Please refer to Appendix 1 of the Explanatory Memorandum for details of the guarantee features and conditions.
- You should consider your own risk tolerance level and financial circumstances before making any investment choices. If you are in doubt as to whether the Plan is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice.
- Investment involves risk and past performance information presented is not indicative of future performance. The Plan may not be suitable for everyone. There is no assurance on investment returns and your investments/accrued benefits may suffer significant losses.
- You should not invest based on this document alone. You should read the Explanatory Memorandum for details.

## INVESTMENT OBJECTIVE

Sun Life Capital Guarantee Fund's ("the Fund") investment objective is to preserve the capital of the assets and to seek a stable return to the fund investors so as to enable Sun Life to provide guarantee specified at the "Guarantee Feature" below. The Fund will invest not less than two-thirds of the sums in high quality worldwide fixed-income securities (quoted or unquoted) with credit ratings issued by Standard and Poor's or Moody's or any other equivalent reputable rating agency of "A" or above. The balance of the sums held in the Fund may be invested in worldwide blue-chip securities and other assets either through direct investment or through collective investment schemes which may or may not be authorized by the Securities and Futures Commission of Hong Kong ("SFC").

## GUARANTEE FEATURE

The Fund is a notional account maintained by Sun Life for the purposes of determining the benefits to be provided to members of the Plan pursuant to the Plan, whereby, subject to the guarantee further detailed below, the rate of return will be determined entirely at Sun Life's discretion. The Plan is an insurance policy issued by Sun Life that guarantees the declared rate of return and the interim declared rate of return every year during the period of ten years from the commencement date of the Plan shall not be less than 0% per annum on the total contributions made to the Fund, less any withdrawals and other applicable charges and fees. After ten years from the commencement date of the Plan, unless Sun Life decides otherwise, the guarantee will lapse. The annual declared rate will be announced on or around 31 December each year. The employer and employee contributions must be retained in the Fund until the end of the immediate preceding fiscal year ended on 30 September to be entitled to the annual declared rate of return on the entitlement subject to the applicable rules of the Plan; otherwise, the interim declared rate of return shall be applied for determining investment return on the entitlement and credited to the member's capital guarantee account. Such guarantee shall remain unchanged until the expiry of such period of ten years from the commencement date or the termination of the Plan, whichever is the earlier. The guarantee is provided by Sun Life. In case there is any shortfall, Sun Life will make up the difference for a period of ten years from the commencement date of the Plan. The guarantee is subject to qualifying conditions. Please refer to Appendix 1 of the Explanatory Memorandum for details of the guarantee features and conditions.

The annual declared rate of return of the Fund is based on the yield earned as at the end of its fiscal year ending on September 30 each year, net of all relevant taxes but including realized and unrealized gains and adjustments to smooth market fluctuations and to provide for the investment guarantee.

**Investment involves risk. There is no assurance on investment returns and your investments may suffer significant losses.**

## MARKET REVIEW

As US core consumer price index (CPI) in Mar 2023 continued to go down to 5.6% from the recent peak of 6.6% in Sept 2022, U.S. Federal Reserve ("FED") has slowed down the FED funds rate ("the Rate") hikes further, from +50bps in December 2022 to +25bps each in Feb & Mar 2023. The credit events for some US regional banks and Credit Suisse in Mar 2023 also lowered market expectations on Fed funds rate hikes for the rest of 2023. US personal consumption expenditures core deflator in Mar 2023 fell to 4.6%, showing a faster-than-expected pace of disinflation yoy, while it is still higher than FED's long-term goal of 2%.

J.P. Morgan Asia Credit Index (JACI) Investment grade has delivered total return of 2.42% during the quarter. It includes recurring interest income of 0.95%, and the mark-to-market return of 1.47% that mostly driven by the drop of US treasury yields.

## MARKET OUTLOOK

US FED officials remained focused on inflation risk. They noted the recent development in regional banks would be likely resulted in tighter credit conditions for households and businesses, and weigh on economic activity, job market and inflation, but the extent of these impacts was uncertain. The FED officials' median interest rate projection implies another 25bps of rate hikes in 2023 before rate cut in 2024.

Broadly speaking, credit risk among Asian names outside of the PRC property sector remains low, with limited fallen angel risk. Top Asia financial credits having strong credit profile remain well supported by investors, where they dominated the primary issuances and received strong market responses with large and oversubscribed book building.

The above are historical rates declared in respect of the Fund for the past years. Please note that the declared rate is the actual rate at which interest has been credited to the Fund and that no deductions are made from such interest. Please also note that the figures are for indication only and that past performance is not necessarily a guide to future performance. Investment return may fluctuate. The relevant interest amount or the declared return will be credited to the member's capital guarantee account on each review date or the date of termination of the Plan, whichever is earlier. Subject to the guarantee feature as described under the "Guarantee Feature" sector above, the declared rate of return and the interim declared rate of return will be determined entirely at Sun Life's discretion. Moreover, Sun Life, at its sole discretion, has the right to retain the investment income of the Fund in excess of that required to be set aside to meet the guaranteed benefits under the Fund. The annual declared rate will be announced on or around 31 December each year.
