

Living Master Benefit/ Living Master Extra Benefit

With supplementary benefit of Multiple Protection Benefit

Wouldn't it be great if **you can have extra protection when critical illness strikes**

With the longer average life expectancy of the Hong Kong population, the risk of contracting more than one critical illness also becomes higher. People are suffering from critical illnesses at a younger age. Fortunately, due to medical advancement, patients can greatly increase their chances of recovery through treatments by new drugs and advanced medical technology. However the treatment costs are relatively high.

This is where Sun Life steps in - your trusted partner for life's journey and achieving life's dreams. By adding **Living Master Benefit/Living Master Extra Benefit**, an optional rider benefit which will pay lump-sum amount or reimburse medical costs depending on the illness, to your Sun Life insurance plan[^], you can rest assured that you get comprehensive coverage for 48 critical illnesses that gives you peace of mind.

The remarks and notes below supplement the contents of this leaflet and aim to provide a better explanation of **Living Master Benefit/Living Master Extra Benefit**.

Remarks:

1. Living Master Benefit pays the benefit by advancing the Sum Assured of the Basic Plan. As a result, Sum Assured of the Basic Plan will be reduced by the actual amount paid under Living Master Benefit. If applicable, the guaranteed cash values, dividends and any contractual payouts payable on such Basic Plan will also be reduced proportionately. Should the reduced Sum Assured of the Basic Plan falls below the relevant minimum requirement of the Basic Plan (will change from time to time as determined by Sun Life), the policy will terminate automatically. Living Master Extra Benefit pays a top up benefit in addition to the Basic Plan life coverage.
2. Applicable to insured from attained age 0 until 18.
3. Applicable to insured from attained age 18 until 65.
4. Applicable to insured from attained age 65 until 80.
5. The Value-added Benefits are provided by third-party company and are not guaranteed to be renewable. Please refer to Quick Guide to Sun Life Value-added Services for more details. Sun Life are not responsible for any act, negligence or failure to act on the part of the designated third-party company or service provider. Sun Life will not be liable for any loss or damage, costs or other expenses whatsoever and howsoever, directly or indirectly, caused by, arising from or in connection with the services.
6. The date that any signs or symptoms first occurred of such critical illness shall be at least 90 days after the issue date, effective date or last reinstatement date of MPB rider, whichever is later.
7. The first claim will be paid under the Basic CI Rider, and thereafter the second to the fifth claims will be paid under MPB Rider.
8. A maximum of 5 critical illness claims include up to 3 claims for critical illness of Group 1 (Cancer), of which these 3 Cancer claims can be made under the Basic CI Rider, if applicable, and MPB Rider.
9. In the case of a claim for a critical illness of Group 1 – Cancer or Group 2 – Illnesses Related to Organ Failure under this rider benefit, if this critical illness incurs after an approved claim for a critical illness of Group 1, the date of diagnosis or surgery date of this critical illness shall be after the expiry of a 5-year Cancer-Free Period in relation to the immediately preceding approved Group 1 claim. If the critical illness of the Critical Illness Benefit paid under the Basic CI Rider is Terminal Illness, the first multiple claim under MPB Rider can be made from any group of critical illnesses, provided that the date of diagnosis or surgery date of the critical illness of such claim shall be at least 5 years from the date of diagnosis of such Terminal Illness.
10. 47 critical illnesses are the same as those of the Basic CI Rider, except for Terminal Illness. Please refer to "List of Critical Illnesses Covered" for details.
11. The "5-year Cancer-Free Period" must be determined by the insured's treating doctor(s) to confirm the cancer-free state of the insured for the whole duration of the last 5-year period. The cancer-free state must also be confirmed and supported by clinical, radiological, histological and laboratory evidence and evidence of all other relevant investigative methods available at that time. Cancer-free state means there is no sign or symptom of any malignant growth. The 5-year Cancer-Free Period shall start on the completion date of treatment for critical illness of Group 1. Treatment for such critical illness shall include any Surgery, chemotherapy, radiation therapy, immunotherapy, monoclonal antibody therapy or other conventional cancer treatments that have been used as prescribed by the insured's treating doctor(s).
12. For a claim regarding Multiple Sclerosis, the insured must survive for at least 30 days following the date of diagnosis.

Living Master Benefit/ Living Master Extra Benefit

If applicable, the guaranteed cash values, dividends and any contractual pay-out payable on such Basic Plan will also be reduced proportionately. Should the reduced Sum Assured of the Basic Plan falls below the relevant minimum requirement of the Basic Plan (will change from time to time as determined by Sun Life), the policy will terminate automatically.
