

Sun Life Rainbow MPF Scheme

Tax Deductible Voluntary Contributions Account

Enjoy tax savings while planning for retirement

Important Notes

- Sun Life Rainbow MPF Scheme (the “Scheme”) is a mandatory provident fund scheme.
- Investment involves risks and not all investment choices available under the Scheme would be suitable for everyone. There is no assurance on investment returns and your investments/ accrued benefits may suffer significant loss.
- You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of funds, you are in doubt as to whether a certain fund is suitable for you (including whether it is consistent with your investment objectives), you should seek independent financial and/or professional advice and choose the fund(s) most suitable for you taking into account your circumstances.
- Members reaching 65th birthday or early retiring on reaching age 60 may apply (in such form and on such conditions as the Trustee may from time to time determine but subject to the Mandatory Provident Fund Schemes Ordinance and the Mandatory Provident Fund Schemes (General) Regulation (the “MPFS Regulation”)) for payment of the MPF Benefits and/or TVC benefits in instalments. Please refer to Section 6.1.12 “Withdrawal of Benefits” of the MPF Scheme Brochure for further details.
- You are advised to read the MPF Scheme Brochure and the relevant marketing materials of the Scheme for further details and risk factors prior to making any investment decision.

“Retirement” is supposed to be a fruitful result of a busy life. However, many people cannot enjoy a worry-free retirement. Some people even think that retirement is an unreachable dream. After all, insufficient retirement savings is the root cause. The aging trend of Hong Kong population continues. The average life expectancy for Hong Kong people is more than 80 years old. With facing long-term retirement living expenses, cost of inflation and medical fees, we should plan ahead to have a comprehensive retirement plan in order to achieve a worry-free retirement.

To encourage the working population developing a saving habit and plan ahead for their retirement, the Hong Kong government has passed the legislation¹ to provide tax benefits to members who make tax deductible voluntary contributions (“TVC”) with effect from 1 April 2019.

About TVC

| | |
|--------------------------------|--|
| Easy to open an account | <ul style="list-style-type: none">• If you are an MPF scheme’s employee member, a self-employed person member, a personal account holder or a member of an MPF exempted ORSO scheme, you are eligible to open a TVC account with your preferred trustee. |
| Flexible contribution | <ul style="list-style-type: none">• You can choose making either regular contributions or lump-sum contributions and you are allowed to adjust contribution amounts based on your different stages of life and personal financial circumstances. You can even suspend and resume making contributions at any time. |
| Enjoy tax benefits | <ul style="list-style-type: none">• According to Hong Kong Inland Revenue Ordinance (“IRO”), with effect from the assessment year 2019/2020, your TVC can enjoy tax benefits. The tax deduction for TVC caps at HK\$60,000² and the maximum amount of tax savings is HK\$10,200. |
| Convenient to manage | <ul style="list-style-type: none">• You can either make your investment portfolio via the constituent funds offered by the MPF scheme you selected or choose Default Investment Strategy (“DIS”). In addition, you can transfer all your TVC benefits to a TVC account under another MPF scheme. |

¹ Inland Revenue and MPF Schemes Legislation (Tax Deductions for Annuity Premiums and MPF Voluntary Contributions) (Amendment) Ordinance 2019 provides that tax incentives will be provided for TVC made by MPF scheme members and premiums paid for qualifying deferred annuity policies (QDAP) from the assessment year 2019/20.

The differences between TVC and other voluntary contributions

An MPF scheme may offer different types of voluntary contributions. You should, based on your investment needs, select the most suitable voluntary contribution.

² This is the maximum tax concession amount in the year of assessment 2023/2024. This cap is an aggregate limit for both TVC and qualifying deferred annuity policies ("QDAP").

By making TVC, how much tax payment may be saved?

And how much MPF benefits may be more

Example (for illustration and reference only)

Assumptions:

- Member A starts working and enrolls in an MPF scheme from 21 years old. He/she makes different amounts of TVC at different stages of life until early retirement at age 60;
- Only the current Basic Personal Allowance and the deductions for MPF mandatory contributions are taken into account;
- Tax rates maintain at the level of the assessment year 2023/2024;

- Member A does not apply for QDAP for tax benefits;
- Both Employer and Member A contribute 5% of the Relevant Income (as a total of 10%) with the amount of mandatory contributions capped at HK\$3,000 per month; and
- Member A's MPF investments obtain an annualized return of 3.5%

| Career Starter: Aged 21-30 | | Breadwinner: Aged 31-40 | | Business Achiever: Aged 41-50 | | Golden Age: Aged 51-60 | |

Note: The tax calculations in the above example do not take into account other factors of tax assessment (e.g. other allowances and tax deductibles). The projected retirement investment balances in the above example are calculated based on the assumptions listed above and do not take into account other factors of MPF investments (e.g. the changes of investment portfolio during the investment period). The above example is based on an assumption with positive returns, investors should be aware of any situations with negative returns during the investment period. The figures in the above example are hypothetical and illustration purpose only, and it is not intended to provide any forms of guarantee or investment advice.

Important Note

Investment involves risks and past performance is not indicative of future performance. Investment return may rise as well as fall due to market condition and currency movement which may affect the value of investments. The value of units may vary due to changes in exchange rates between currencies. Emerging markets may involve a higher degree of risk than in developed markets and are usually more sensitive to price movements.

The return of Sun Life MPF RMB and HKD Fund may be adversely affected by movements in RMB exchange rates as well as foreign exchange controls and repatriation restrictions imposed by the Chinese government as the fund invests part of its assets in RMB denominated money market and debt instruments.

You are advised to read the MPF Scheme Brochure of the Scheme for further details including risk factors prior to making any investment decision.
